

# DID YOU KNOW?

**The University of Central Florida is one of the fastest growing metropolitan universities in the country and its success stories continue to emerge. As Orlando's higher-education partner, UCF plays a major role in the region's growth through its community and corporate partnerships, its research programs and the talents of its students and alumni. Take a look at these points of pride and you'll see what we mean.**

▶ The computer programming team placed 11th in the 2000 International Collegiate Programming Contest, in a field that included teams from Russia, Australia, Canada, Germany, China, Japan and Hong Kong. UCF's computer teams have placed first, second or third in the Southeast for 19 consecutive years.
